

# Health and Human Services

HEALTH & HUMAN SERVICES PROGRAM PLAN

**Organization of the Pie Chart:** The following agencies were combined to make the pie chart more readable.

**Community Services:** CSD - Current Expense, Human Services/CJ, and Grants.

**Behavioral Health:** Mental Health and Alcoholism & Substance Abuse

**Housing Programs:** Federal Housing & Community Development Fund and Housing Opportunity Acquisition.

**Administrative & Miscellaneous Programs:** Veterans' Services, Special Programs, Youth Employment, Dislocated Workers/PIC, and DCHS Administration

Source: Program Plan Summary Page (Found at the end of the section).

**P R O G R A M   E X P L A N A T I O N S*****INTRODUCTION***

King County is investing in the health and well being of its residents through its ongoing commitment to, and participation with, human services. King County has diverse roles in human services, ranging from planner to partner to resource developer. The majority of health and human services programs funded by King County are discretionary in nature. As spending in mandatory areas like public safety and criminal justice increases, the amount of County funds available for discretionary activities is limited. With increasingly restricted funding, the County is focusing its support for discretionary human services in three areas: regional services (services offered to all residents of King County), services to unincorporated King County (where King County is the de facto local government), and prevention services that help minimize impacts on the justice systems.

**Dedicated Health and Human Services Funding:** In lieu of further dramatic reductions to King County's health and human services agencies, King County will dedicate \$7 million to support programs for the County's most vulnerable populations. This new revenue is generated by rent payments from the County's solid waste utility for use of the Cedar Hills Landfill and is budgeted in the County's Children and Family Set Aside Fund, a subfund of the Current Expense Fund. The revenue is specifically devoted to supporting community health clinics, domestic violence shelter and sexual assault programs, as well as youth and family service networks. Without this new revenue, these regional health and human services programs would face substantial reductions.

**Dedicating Funding to Community Services:** The Community Services Division of the Department of Community and Human Services will receive \$3,774,021 in Solid Waste rent backed Children and Family Set-Aside funding in lieu of reductions in Current Expense funds to the division. These funds will support a mix of programs that were supported by Current Expense and Children and Family Set Aside funds in 2003.

<b>Health and Human Services Program</b>	<b>Solid Waste Backed Children and Family Set Aside</b>
Domestic Violence and Batterer's Treatment Programs	\$239,948
Homeless and Affordable Housing	\$1,466,403
Criminal and Juvenile Justice Programs	\$914,500
Sexual Assault Victim Services	\$561,355
Legal Assistance	\$25,000
Youth and Family Services Programs	\$1,201,052
Homeless Youth Shelters	\$256,774
Community Health Centers	\$736,510
Safe Communities and Healthy Families	\$1,489,469
Administration/Staffing Resources	\$108,989
<b>Total:</b>	<b>\$7,000,000</b>

**Making Criminal Justice Expenditures Transparent:** The 2004 Executive Proposed Budget moves all expenditures related to providing jail health services to the Current Expense Fund. Because Jail Health Services resides operationally within the Department of Public Health- Seattle and King County, the expenditures and revenues associated with Jail Health Services activities had, in previous years, been included within the Public Health Pooling Fund. In an effort to make transparent all criminal justice related costs, the 2004 Executive

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

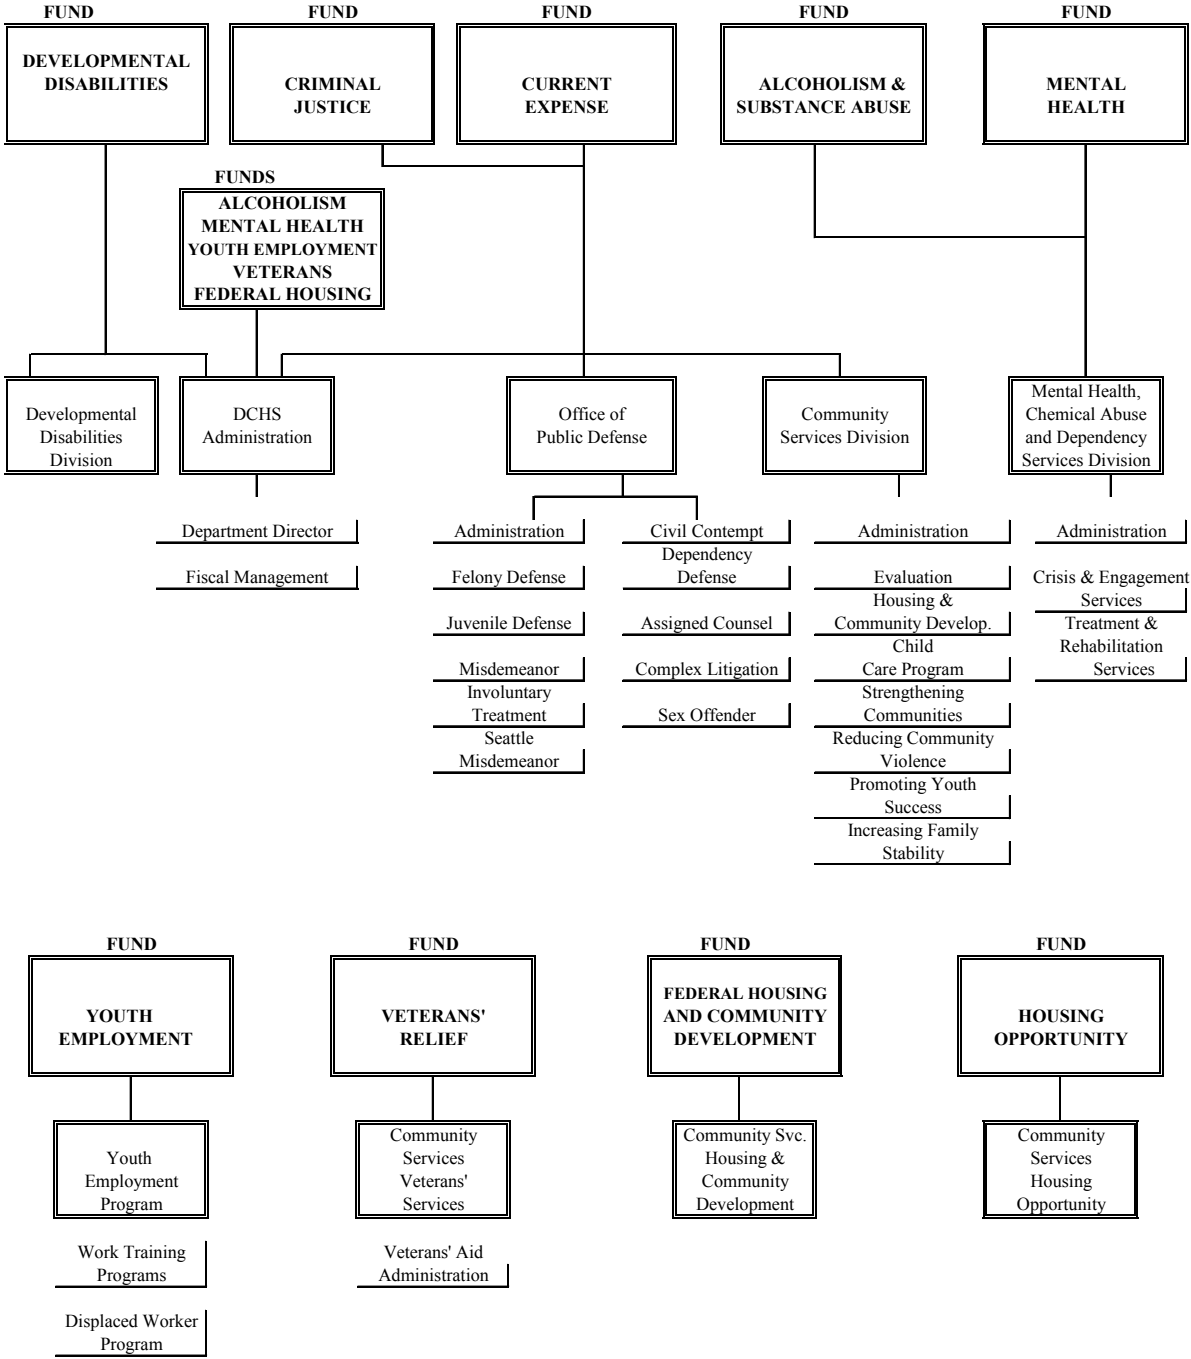

Proposed Budget establishes an appropriation unit within the Current Expense Fund for Jail Health Services, moving Jail Health costs out of the Public Health Fund. Public Health will continue to provide operational and policy oversight for Jail Health Services in the King County correctional facilities.

**Increasing Treatment Funds for the Criminal Justice System:** The 2004 Executive Proposed Budget increases support for individuals involved with the criminal justice system who need chemical abuse treatment services. Community Center for Accountability Program clients will receive lifestyle, employment, housing, and education assistance in an effort to reduce recidivism in the criminal justice system. The program will be provided in partnership with a community non-profit and housed at the Center to enable close monitoring of clients by the courts and community corrections while simultaneously providing a rigorous treatment regime.

**Investing in Technology for Long Term Savings:** In 2003, the Department of Public Health and the Department of Adult and Juvenile Detention engaged a consultant to examine King County's Jail Health Services programs and make recommendations for efficiencies that would translate into reduced health care costs. The primary finding of the consultant was a recommendation to implement an electronic medical records system within jail health as soon as possible. Electronic medical records will ensure that consistent and proper medical care is provided to inmates, as well as improve efficiency of the medical providers administering care to inmates. The 2004 Executive Proposed Budget includes \$2.0 million in Capital Improvement Project funds for the purchase and implementation of electronic medical records.

# **Community and Human Services**

**HEALTH & HUMAN SERVICES PROGRAM PLAN**

**COMMUNITY & HUMAN SERVICES**

**ISSUES AND PRIORITIES**

**Mission**

**Community & Human Services**

To enhance the quality of life, protect rights, and promote self-sufficiency of our region's diverse individuals, families and communities.

The 2004 Executive Proposed Budget for the Department of Community and Human Services is consistent with the County's priority to provide services to regional and unincorporated King County residents. Department agencies also prioritize prevention services to help minimize impacts on the justice systems. This priority is reflected in the department's focus on treatment, housing, employment, and education assistance in an effort to avoid introduction to and recidivism in the criminal justice system.

In lieu of service reductions to the County's most vulnerable populations, King County will dedicate \$7 million to support community health clinics, domestic violence shelter and sexual assault programs, as well as youth and family service programs that prevent interaction with the juvenile justice system. These Children and Family Set Aside funds are generated by rental fees for the Cedar Hills Landfill and will be distributed to the Department of Public Health, the Housing Opportunity Fund, and the Community Services Division.

**Community Services Division**

The Community Services Division will receive \$3,774,021 of Current Expense support derived from the lease of the Cedar Hills Landfill by the Solid Waste Division. The Solid Waste rent backed funds are provided to the Community Services Division in lieu of reductions of Current Expense funds to the division. These funds will support a mix of programs including domestic violence, sexual assault victim services, homeless and affordable housing, homeless youth shelters, and criminal and juvenile justice services, which were supported by Current Expense and Children and Family Set Aside funds in 2003.

Through interdepartmental agreement, the Community Services Division will transfer a portion of its Children and Family Set Aside funding to the Work Training Program. The Work Training Program will increase its support of Out of School Youth, New Start, and Youthbuild contracts with this \$1,065,091 transfer.

**Community Services Division and Work Training Program  
Current Expense and Children Family Set Aside Revenue Allocation**

	2003 ADO	2004 PROP	2003-2004 Change
<b>Community Services Division</b>	\$7,130,841	\$7,050,368	(\$80,473)
<i>Current Expense</i>	\$5,287,392	\$2,497,989	(\$2,789,403)
<i>Solid Waste Backed Children and Family Set Aside</i>	\$0	\$3,774,021	\$3,774,021
<i>Children and Family Set Aside</i>	\$1,843,449	\$778,358	(\$1,065,091)
<b>Work Training Program</b>	\$1,151,321	\$1,611,140	\$459,819
<i>Current Expense <sup>1</sup></i>	\$655,272	\$50,000	(\$605,272)
<i>Solid Waste Backed Children and Family Set Aside</i>	\$0	\$0	\$0
<i>Children and Family Set Aside</i>	\$496,049	\$1,561,140	\$1,065,091
<b>Total:</b>	<b>\$8,282,162</b>	<b>\$8,661,508</b>	<b>\$379,346</b>

<sup>1</sup> The Work Training Program's Current Expense reflects 100% CX transfer revenue in 2003 and 2004

**Developmental Disabilities Division**

Continuing its established focus on regional services, the Developmental Disabilities Division will use non-Current Expense funds to maintain countywide services for adults and children with developmental disabilities. These services include rental assistance vouchers and other forms of

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

community participation support; early intervention for birth-to-three-year-olds showing developmental delays; sheltered and group employment; and information, referral, and advocacy assistance. The 2004 Executive Proposed Budget maintains the 2003 level of services in the County.

### **Youth Employment/Dislocated Worker**

The 2004 Executive Proposed Budget reflects three significant revenue changes for the Work Training Program. With a 12 percent increase in Workforce Development Council funding through the federal government, the Work Training Program will increase the Out of School Youth and In School Youth programs. The Work Training Program also increases its Children and Family Set Aside transfer funding through an interdepartmental agreement with the Community Services Division. The \$1,065,091 increase will support Out of School Youth, New Start, and Youthbuild contracts. As a result of this Children and Family Set Aside transfer increase, the Work Training Program simultaneously decreases its Current Expense transfer by \$605,272.

Due to an anticipated reduction in federal funding from the Workforce Development Council and the Workforce Investment Act, the Dislocated Worker Program will reduce training services to King County's dislocated workers. While the current level of individual client training will be lowered, there will be no reduction in program services.

### **Housing Opportunity Fund and Federal Housing and Community Development Fund**

King County's Housing and Community Development Program creates and preserves safe and affordable housing, reduces homelessness, and improves the viability, livability, and economic stability of low-income communities. This program makes capital improvements in public infrastructure and supports human service agencies that work to address the County's housing-related issues.

The Housing and Community Development Program receives federal Community Development Block Grant and HOME dollars as well as state and local dollars. In 2002, the most recent year for which there is complete accomplishment data, this program funded the creation or preservation of 470 units of affordable housing, and assisted the private market to create an additional 210 affordable units through incentives. Assistance to prevent homelessness was provided to 206 households, and emergency shelter or transitional housing to nearly 2,400 households. Permanent supportive housing assistance was also provided to previously homeless, disabled people. Low-income communities were helped to make public infrastructure improvements and capital assistance was provided to King County human service agencies, helping them provide services more efficiently and effectively.

Most of King County's funds for the creation and preservation of affordable housing are made available through the Housing and Community Development Program's housing finance program. The program operates a competitive Request-For-Proposal process each year to identify and select projects to receive capital awards for acquisition, rehabilitation, site improvements, new construction, and other costs related to affordable housing development. The program uses a variety of revenue sources, from King County's Housing Opportunity Fund to federal HOME and CDBG dollars. These revenue sources have different priorities and requirements, which allow the housing finance program to be flexible in matching projects to fund sources.

This is the second year that the Executive Proposed Budget for the Housing Opportunity Fund includes money made available as a result of State legislation passed in 2002 (SHB 2060; RCW 36.22.178). These funds are dedicated to support affordable regional housing activities. This legislation authorized King County to charge a fee for the recording of documents associated with real estate transfers. King County retains 60 percent of the fees collected, less a percentage for administration costs, for use in affordable housing development. Through the Housing Opportunity Fund, \$2.5 million will be disbursed. An interlocal agreement, approved by Council in July, 2003, establishes priorities for use of funds, sets subregional allocation targets, and establishes the Joint Recommendations Committee as the body that will review and adopt funding allocations and related policies.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

The 2004 Executive Proposed Budget for the Housing Opportunity Fund includes a Current Expense transfer of over \$400,000. The Executive is also proposing to provide \$1.0 million in Solid Waste rent backed funds to replace Current Expense revenues cut from the Housing Opportunity Fund in 2003. These funds enable the Housing Opportunity Fund to solicit and fund housing projects that are very high priority for the County, providing housing for special needs populations such as homeless people who have been incarcerated, the mentally ill, or the developmentally disabled.

### **Mental Health/Chemical Abuse Dependency Services**

**Mental Health Fund-** The 2001 legislative session resulted in a cut to State mental health funding of \$2 million per year, compounded over six years. The 2002 legislative session further reduced mental health funding by requiring King County to spend down its reserves, which will result in a shrinking fund balance for the Mental Health Fund in outyears. With a shrinking fund balance, Mental Health will eliminate funding for crisis stabilization and screening services at Harborview Medical Center's Crisis Triage Unit. These services were supported by the fund balance in previous years. Mental Health will continue to support expanded mental health and substance abuse services with Department of Adult and Juvenile Detention and Criminal Justice funds at 2003 levels.

**Substance Abuse Fund-** The 2004 Executive Proposed Budget includes the request of 2.5 FTE and 1.0 TLT to support the Criminal Justice Continuum of Care. With the Superior and District Courts, Public Health, the King County Correctional Facilities, and the criminal justice council, the Continuum of Care seeks to reduce detention costs in the criminal justice system by providing mental health and drug/alcohol treatment services to individuals currently involved in the criminal justice system. Future Continuum of Care funding is contingent upon demonstrated results, meaning that the Mental Health, Chemical Abuse and Dependency Services Division must show, through program evaluation, that Continuum of Care programs provided to mental health and drug/alcohol treatment clients decrease jail days of those individuals. The requested positions will support the Mental Health, Chemical Abuse and Dependency Services Division in that objective. The Mental Health, Chemical Abuse and Dependency Services Division has also initiated a process to identify a new provider network to deliver Outpatient Drug and Alcohol Treatment Services, which is expected to improve accountability and efficiency in service delivery. Further efficiencies within the Mental Health, Chemical Abuse and Dependency Services Division include the transfer of 13 FTE from the Mental Health Fund to the Substance Abuse Fund by aligning these FTE with the revenues that support them.

### **Veterans' Program**

The Veterans' Program maintains 2003 funding levels in 2004, enabling the agency to continue providing employment training, mental health services, transitional housing alternatives, and financial assistance to the County's veteran population.

### ***PROGRAM HIGHLIGHTS***

#### **DCHS Administration**

##### **Technical Adjustments**

**LAN Administration, Shift to the Mental Health, Chemical Abuse and Dependency Services Division - \$72,696.** This adjustment reflects a departmental decision to budget for LAN administration performed by personnel in the Mental Health, Chemical Abuse and Dependency Services Division. Formerly provided by Developmental Disabilities Division staff, the director's office's needs in terms of LAN administration have outgrown the ability of that division to provide service. This cost will be recovered from non-Current Expense programs in the department.

**Central Rate Adjustments - \$10,891.** Central rate adjustments include Insurance Rates, Prosecuting Attorney's Office charges, Lease Rates, ITS Operations and Maintenance charges, OIRM Technology Projects, Finance Payroll Projects, Flex Benefits, CX Overhead, Retirement Benefit costs, and COLA.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Community Services Division**

#### **Mandatory Additions**

**King County Coalition Against Domestic Violence - \$25,000.** This item provides 2004 Solid Waste rent backed funding for the King County Coalition Against Domestic Violence. Services supported with this funding include training, public education and advocacy activities aimed at ending domestic violence. Acting as a coordinating body, the King County Coalition Against Domestic Violence encourages effective representation of community-based victim service agencies to assist in countywide domestic violence public policy and education efforts.

**Restore Homeless Contracts - \$166,543.** This item maintains 2003 homeless contracts with Solid Waste rent backed funding in 2004. Regional in nature, these contracts are consistent with the recommendations of the Regional Policy Committee and provide homeless and transitional housing services, and homeless prevention. Clients include low income families, unemployed individuals without benefits, individuals in need of transitional housing or at risk of losing current housing, and the agencies committed to assisting homeless clients seeking jobs and services. This item adjusts low org 6341 accordingly.

**Restore Homeless Contracts - \$159,199.** This item maintains 2003 homeless contracts with Solid Waste rent funding in 2004. Regional in nature, these contracts are consistent with the recommendations of the Regional Policy Committee and provide homeless, homeless prevention, and transitional housing services. Clients low income families, unemployed individuals without benefits, individuals in need of transitional housing or at risk of losing current housing, victims of domestic abuse and the agencies committed to assisting homeless clients seeking jobs and services. This item adjusts low org 6314 accordingly.

**Restore Youth Contracts - \$54,891.** This item maintains 2003 youth contracts with the Seattle Youth Shelter, Teen Link, and Sno-Valley Youth Center with the receipt of Solid Waste rent backed funding. The contracts ensure funding for youth programs that encourage leadership development and leisure activities.

**Restore Aging Contracts - \$134,720.** This item maintains 2003 aging contracts with King County adult day health centers with the receipt of Solid Waste rent backed funding. To prevent costly institutionalization in nursing homes, these services provide treatment to and support vulnerable adult populations that are low-income yet not Medicaid eligible.

**Restore Juvenile Justice/ Community Contracts - \$504,278.** This item maintains 2003 contracts supporting a mix of juvenile justice intervention and community programs with the receipt of Solid Waste rent backed funding in 2004. Contracts include the Juvenile Justice Operational Master Plan's Juvenile Justice Initiative, Reinvesting in Youth, Fremont Public Association Community Action Team, Project Look, Crisis Clinic Community Information Line, and the Pacific Science Center.

#### **Program Changes**

**Food Lifeline Add - \$110,000.** This Current Expense funded contract is a transfer from the Department of Adult and Juvenile Detention's Community Corrections Division, where it was budgeted in 2003. Food Lifeline provides the countywide distribution of food and other essentials to the network of neighborhood food banks in King County. Prior to the closure of the North Rehabilitation Facility, inmate labor provided repackaging and warehousing services for the distribution process. This item provides funding to compensate for the loss of in-kind labor that the North Rehabilitation Facility provided in prior years.

#### **Technical Adjustments**

**Class Comp Adjustment to Aging Coordinator Position - (\$234).** This item adjusts the salary of a FTE Project Program Manager III position. The class comp adjustment is necessary to fill the vacant position in 2004.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

**Low Org Realignment - (\$63,453)/(.30 FTE).** This item removes remaining budget authority for the Washington State University Cooperative Extension and King County Child Care Program, which were eliminated in 2002. This item also continues the Functional Family Therapy Initiative and Child Care Information and Referral Services. A product of the 2002 Juvenile Justice Operational Master Plan Proviso, the Functional Family Therapy Initiative seeks to decrease the financial burden of criminal justice costs on King County by reducing youth recidivism and keeping youth out of the criminal justice system.

**Current Expense Underexpenditure Adjustment - (\$3,393).** This item increases the underexpenditure obligation with a corresponding increase in Current Expense funding. The Current Expense underexpenditure is equal to 1.25% of non-contracted Current Expense funds.

**Central Rate Adjustments - (\$84,317).** Central rate adjustments include Flex Benefits, ITS Operations & Management, ITS Infrastructure, DNRP GIS, Telecommunications Services and Overhead, Motor Pool, Long Term Leases, Finance Rates, Cell Phone/Pager Services, Property Services, Retirement Rates and COLA.

**Federal Housing & Community Development 2460/0350**

\*\* This includes revised 2003 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Federal Housing and Community Development**

#### **Significant Program Reductions**

**Transfer Administrative Labor Costs to the Housing Opportunity Fund – (\$45,726).** This item reflects expenditures by the Housing Opportunity Fund for loan-out labor in Federal Housing and Community Development. All FTEs that perform work supporting HOF's housing programs are organizationally located in Federal Housing and Community Development and paid for from the Housing Opportunity Fund appropriation.

**JRC Administrative Adjustments - (\$78,823).** This item reflects an anticipated reduction in projects' environmental review costs, and adjustments to Department of Community and Health Services departmental overhead that net to a reduction in the 2004 request.

#### **Significant Program Additions**

**Increase in HOME Program Revenues - \$412,748.** This increase in the HOME program (housing development and repair, and first-time homebuyer assistance) reflects projections of Federal HUD revenue for 2004.

**Increase to Transitional and Emergency Housing - \$391,654.** This increase reflects projections of 2004 federal revenue available to the Federal Housing and Community Development through the THOR/THORA program, Shelter Plus Care, and McKinney housing programs; supporting transitional and emergency housing and services for homeless people in King County.

#### **Technical Adjustments**

**Decrease in CDBG (Community Development Block Grant) Program Income - (\$129,861).** This item is a technical adjustment of Community Development Block Grant revenues for 2004 and does not affect program service levels offered by the division.

**THORA Planner Converted FTE - 0.83 FTE/(1.00) TLT.** This request converts a 1.0 TLT position to a 1.00 FTE position. The position conducts planning work associated with the THORA (transitional and emergency housing) program. The body of work is ongoing in nature. The department is requesting 0.83 FTE to add to an existing 0.17 FTE, supported by available grant funds.

**Central Rate Adjustments - \$145,357.** Central rates adjustments include Flex Benefits, Motor Pool, Technology Services Infrastructure Charges, Telecommunications Services, Telecommunications Overhead, Prosecuting Attorney Civil Division Charge, Debt Service Adjustment, Retirement Rates, COLA Adjustment, CX Overhead Adjustment, Long Term Leases, Financial Services Charge, Property Services Lease Administration Fee, OIRM Technology Projects, Finance Payroll Projects, Countywide Strategic Technology Projects, and Transfer to Risk Abatement.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Housing Opportunity Fund**

#### **Mandatory Additions**

**Solid Waste Rent-Backed Children and Family Set Aside - \$1,000,000.** This request reflects the addition of \$1.0 million of Solid Waste rent backed revenue to support low-income housing projects in 2004.

#### **Significant Program Additions**

**Document Recording Fee-backed Projects – (\$984,753).** Washington State law requires that the revenue generated from a fee levied on document recording be used to develop affordable housing services (Revised Code of Washington, 36.22.178). Collection of the fee started in June 2002, with 18 months of revenue budgeted in 2003. This proposal authorizes the Housing Opportunity Fund to spend or distribute to cities the estimated \$2.5 million in revenues that will be collected in 2004, reflecting a reduction based on projected revenue collections for 12 months versus revenue collected over an 18-month period in the 2003 Adopted Budget.

**Loan-in labor, Credit Enhancement program - \$12,127.** This revenue-backed increase in budget authority for the Credit Enhancement program provides financial guarantees to developers of affordable housing.

**Transfer to HOF of KC ARCH (A Regional Coalition for Housing) contribution - \$48,701.** This request reflects the transfer to the Housing Opportunity Fund of responsibility for the King County contribution to ARCH, a regional organization representing Eastside cities which supports affordable housing development through land acquisition and other services.

#### **Technical Adjustments**

**Housing Opportunity Fund Administrative Costs - \$49,415.** This request includes salary and benefits cost increases associated with Housing Opportunity Fund administrative staff and space rent increases not included in the PSQ budget.

**Technical Adjustment – Zeroing Contra for Fund 3220 - \$38,124.** Because the appropriation for the Housing Opportunity Fund is made in CIP fund 3220 it is necessary to include a zeroing adjustment in the operating budget, bringing both expenditures and revenues to the zero point. See the CIP Executive Proposed Budget, Fund 3220, for the total requested appropriation for the Housing Opportunity Fund.

**Project Revenue Adjustment - (\$163,282).** This item represents expenditure adjustments based on 2004 projected revenues from various sources, reflecting an adjustment in the level of housing project commitments in 2004.

**Central Rate Adjustments - (\$332).** Central rates adjustments include Telecommunications Services, Telecommunications Overhead, Long-term Lease Rates, Property Services Lease Administration Fee, and Motor Pool Rates.

### **Youth Employment (Work Training Program)**

#### **Program Changes**

**Program Increase to Out of School Youth - \$286,791.** With an increase in federal funding through the Workforce Investment Act, this item increases services provided to youth who have dropped out of school and/or who are at risk of becoming involved with the criminal justice system. Services are provided in partnership with school districts and community based organizations.

**Program Increase to In School Youth - \$10,592.** With an increase in federal funding through the Workforce Investment Act, this item increases services provided to at risk, low income youth who are at risk of becoming involved with the criminal justice system. Services are provided in partnership with school districts and community based organizations.

**Program Increase to Youthbuild - \$107,969.** With an increase in Children and Family Set Aside transfer funds, this item ensures continuation of community contracts through the Youthbuild program. This program serves at risk, low income youth and young adults who are involved with the criminal justice system by providing education and training in the construction industry with the goal of securing work that might not otherwise be available to this population. Services are provided through contracts with partners including Central Area Motivation Program, Habitat for Humanity, and school districts in King County.

#### **Technical Adjustments**

**TLT Request for Time Limited Grants - (\$4,040)/ 3.0TLT.** This item adds 3.0 TLT to support Workforce Development Council contracts based on grants received in 2003.

**Current Expense Transfer Underexpenditure Adjustment - \$12,105.** This item decreases the Work Training Program's underexpenditure obligation resulting from the decrease in the program's Current Expense transfer.

**Central Rate Adjustments - (\$13,719).** Central rate adjustments include Flex Benefits, ITS Infrastructure, Telecommunications Services and Overhead, Motor Pool, Long Term Leases, Finance Rates, Property Services, OIRM Technology Projects, Finance Payroll Projects, Retirement Rates and COLA.

### **Developmental Disabilities**

#### **Technical Adjustments**

**Adjust 2004 Base – Maintain Current Service Level - (\$737,606).** This technical adjustment of the Developmental Disabilities base budget maintains existing service levels. Approximately \$416,000 represents a change in the handling of contracted services supported by the Washington State Department of Social and Health Services. The balance of this reduction comprises 2003 appropriations in contract line items for completed training programs for service providers that could have been eliminated in the PSQ phase and that do not affect 2004 service levels for program beneficiaries.

**Central Rate Adjustments - \$2,219.** Central rates changes include Flex Benefits, Retirement Rates, Current Expense Overhead Adjustment, Technology Services Operations and Maintenance Charge, Technology Services Infrastructure Charge, Telecommunications Services, Telecommunications Overhead, Motor Pool Usage Charge, Debt Service Adjustment, Long-term Leases, Financial Services Charge, Cell Phone and Pager Services, Property Services Lease Administration Fee, COLA Adjustment, Countywide Strategic Technology Projects, Finance Payroll Projects.

### MHCADS – Mental Health Services Fund

#### Program Changes

**Prepaid Health Plan & Specialized Programs - \$395,880.** The Prepaid Health Plan is the state-funded and King County-managed care system of mental health services. With an increase in state funding, this item supports the Prepaid Health Plan benefit and other specialized programs outside the Prepaid Health Plan. This item supports programs for children and the homeless and ensures the provision of residential and vocational services, crisis and hospital diversion services, criminal justice related services, and services to move individuals from the Western State Hospital into the community. These funds also support the Evaluation and Treatment Facility.

**County Managed Services - (\$296,589)/1.5 FTE/1.1 TLT.** This item ensures the provision of a subset of directly provided and subcontracted services as a part of Mental Health's crisis and commitment services obligations. These services are fully funded by state and federal support, which is contingent upon their delivery. Directly provided services include Quality and Clinical Services, the Federal Children and Families Initiative Grant, the Quality Review Team. Subcontracted services are provided in partnership with the First Time Offender program, the King County Housing Authority, the Muckleshoot and Snoqualmie tribes and Project TEAM. This item also includes expenditure authority to comply with the federally mandated HIPAA implementation, which is state and federally funded.

**Administration - \$259,952/(13.0 FTE)/2.0 TLT.** To improve efficiencies within the Mental Health, Chemical Abuse and Dependency Services Division, this item moves 13 FTE from the Mental Health Fund to direct payment in the Substance Abuse Fund. This net-zero staffing transfer allows the Mental Health, Chemical Abuse and Dependency Services Division to efficiently monitor the expenditures and revenues associated with these positions. This item also adds 2.0 TLT positions. One TLT will support the integration of an Office of Public Defense database, which will be funded through Current Expense Transition Fund dollars. The TLT will be housed in Mental Health's technology group because it has existing technical knowledge and experience in database implementation to provide necessary support to the TLT. A second TLT will backfill for FTE IT staff that will further support OPD's database integration. Costs associated with this TLT request will be absorbed by the Mental Health Fund.

#### Technical Adjustments

**Central Rate Adjustments - \$178,346.** Central rate adjustments include Flex Benefits, CX Overhead, ITS Infrastructure, Telecommunications Services and Overhead, Motor Pool, Prosecuting Attorney, Debt Service, Long Term Leases, Finance Rates, Cell Phone/ Pager Services, Property Services, OIRM Technology Projects, Risk Abatement, Finance Payroll Projects, Retirement Rates, and COLA.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **MHCADS – Alcoholism and Substance Abuse Services Fund**

#### **Significant Program Additions**

**Administration, Chemical Dependency Involuntary Treatment Services & Assessment Center - (\$543,366)/11.00 FTE/(0.50 TLT).** To improve efficiencies within the Mental Health, Chemical Abuse and Dependency Services Division, this item moves 13 FTE from the Mental Health Fund to direct payment in the Substance Abuse Fund. This net-zero staffing transfer allows the Mental Health, Chemical Abuse and Dependency Services Division to efficiently monitor the expenditures and revenues associated with these positions. This item includes the addition of 1.0 FTE to monitor Drug Court contracts and .50 TLT to backfill for existing contract monitor staff who will be loaned out to the Reclaiming Futures project in 2004. This item also eliminates 2.0 Assessment Center FTE and 1 Chemical Dependency Involuntary Treatment Services TLT that remained in 2003 but are no longer needed.

**Criminal Justice Continuum of Care - \$1,043,990/2.5 FTE/1.00 TLT.** Maintained by Current Expense revenues and Mental Health funding support, this item adds 2.5 FTE and 1.0 TLT to the Criminal Justice Continuum of Care to ensure continuation of those services begun in 2003. With the Superior and District Courts, Public Health, the King County Correctional Facilities, and the Criminal Justice Council, the Continuum of Care seeks to reduce detention costs in the criminal justice system by providing mental health and drug/alcohol treatment services to individuals currently involved in the criminal justice system. The 2.5 FTE will provide case monitoring and evaluation services to the Continuum of Care. The 1.0 TLT will provide technology support for three months and will then move to the HIPAA Implementation, funded with Mental Health Loan-Out support.

#### **Technical Adjustments**

**Community Center for Alternative Programs Treatment - \$250,000.** Supported by Current Expense funds, this item provides treatment for Community Center for Accountability Program clients including lifestyle, employment, housing, and education assistance in an effort to reduce recidivism in the criminal justice system. The program will be provided in partnership with a community non-profit and housed at the Center to enable close monitoring of clients by the courts and community corrections while simultaneously providing a rigorous treatment regime.

**Transport & Triage/ Sobering Center - \$634,753/.80 FTE/(0.75 TLT).** This item reflects the conversion of a .75 TLT to a .8 FTE. The position, a Chemical Dependency Screener, was found to be on-going in nature. This item also adjusts low org expenditure levels to more accurately align with Substance Abuse programs.

**Contracts & Prevention Services - (\$611,933)/(2.0 FTE).** This item reflects several technical adjustments, including the shifting of expenditure authority within low orgs to more accurately reflect Substance Abuse programs. This item also adjusts expenditure authority for the discontinuation of federal CSAT ATEP grant funding, which provided substance abuse treatment for at risk youth. 2.0 FTE are eliminated and remaining expenditure authority is removed as a result of the Cedar Hills Addiction Treatment facility closure in 2002.

**Central Rate Adjustments - (\$57,551).** Central rate adjustments include Flex Benefits, CX Overhead, ITS Infrastructure, Telecommunications Services and Overhead, Motor Pool, Insurance Charges, Prosecuting Attorney, Debt Service, Long Term Leases, Finance Rates, Cell Phone/Pager Services, Property Services, OIRM Technology Projects, Finance Payroll Projects, Retirement Rates COLA.

\* FTEs do not include Temporaries and overtime.

\*\* This includes revised 2003 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

### Dislocated Worker Program/PIC

#### Significant Program Reductions

**Reduction in Dislocated Worker Services - (\$1,696,787).** This item reflects anticipated reductions in federal funding from the Workforce Development Council and the Workforce Investment Act. While the current level of individual client training will be lowered, there will be no reduction in the breadth of program and administrative services.

#### Technical Adjustment

**Term Limited Temporary (TLT) Establishment - (\$6,257)/(18.0 FTE)/24.0 TLT.** This item replaces a vacant FTE with a TLT to support Workforce Development Council contracts. Because Workforce Development Council grant funding is based on current economic conditions and unemployment rates, the duration of the Workforce Development Council grant funds is uncertain in the outyears. The replacement of an FTE with a TLT allows the Dislocated Worker Program to respond efficiently and flexibly to adjustments in grant funding in the out-years.

**Central Rate Adjustments - (\$2,123).** Central rate adjustments include Flex Benefits, ITS Infrastructure, Telecommunications Services and Overhead, Long Term Leases, Finance Rates, Retirement Rates, Property Services, OIRM Technology Projects, Finance Payroll Projects, and COLA.

### Children & Family Set Aside Fund

#### Mandatory Additions

**Increase Transfer to Community Services Division/Solid Waste Backed Add - \$3,774,021.** This item reflects the increase of Children and Family Set Aside transfer to Community Services Division resulting from revenue generated by rent from the Cedar Hills Landfill. This increase will allow Department of Community and Human Services to dedicate Solid Waste rent backed Children and Family Set Aside funding to those Community Service Division programs that are central to the department's core businesses and specifically highlighted and identified as regional in nature by the Regional Policy Committee.

**Increase Transfer to Public Health/Solid Waste Backed Add - \$2,225,979.** This item reflects the increase of Children and Family Set Aside transfer to Public Health resulting from revenue generated by rent from the Cedar Hills Landfill. This increase will allow Public Health to dedicate solid waste rent backed Children and Family Set Aside funding to Children and Family Commission and Community Health Centers.

**Increase Transfer to Housing Opportunity Fund/Solid Waste Backed Add - \$1,000,000.** This item reflects the increase of Children and Family Set Aside transfer to Housing Opportunity Fund resulting from revenue generated by rent from the Cedar Hills Landfill. This increase will allow the Housing Opportunity Fund to dedicate solid waste rent backed Children and Family Set Aside to providing housing for special needs populations such as the homeless who have been incarcerated, mentally ill, or developmentally disabled.

#### Technical Adjustments

**Community Services Transfer Decrease – (\$1,065,091).** This item reflects the shifting of Children and Family Set Aside funds from Community Services Division to the Work Training Program of the same department. The Work Training Program will decrease its Current Expense transfer funds, which will be shifted to the Community Services Division. This shift of funding allows the Community Services Division to dedicate Solid Waste rent backed Children and Family Set Aside funds to core businesses.

**Work Training – Transfer Increase - \$1,065,091.** This item reflects the shifting of Children and Family Set Aside funds to the Work Training Program from the Community Services Division of the same department.

**Central Rate Adjustments – (\$460).** This item reflects a decrease in Finance Rates.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **PROGRAM HIGHLIGHTS**

#### **Human Services General Fund Transfers**

The 2004 Executive Proposed budget includes General Fund Transfers to the Developmental Disability, Mental Health, Work Training Program, Substance Abuse, and the Housing Opportunity fund.

#### **Work Training Fund Transfer Reduction**

**Decrease in Work Training Program CX Transfer – (\$605,272).** The CX transfer to Work Training Program is reduced subsequent to the receipt of additional Children and Family Set Aside funds in 2004. The remaining CX transfer of \$50,000 will continue to support regional In-School Youth Programs, which provide education and job skills training to at risk, low income youth who are at risk of becoming involved with the criminal justice system.

#### **Substance Abuse Fund Transfer Addition**

**Center for Community Alternative Programs Treatment – \$250,000.** This initiative provides treatment for King County Center for Community Alternative Programming (CCAP) clients including lifestyle, employment, housing, and education assistance in an effort to reduce recidivism in the criminal justice system.

#### **Technical Adjustments**

**1.25percent Underexpenditure Requirement – (\$59,163).** Reflects adjustment of the budgeted underexpenditure requirement.

## **Public Health**

**[Link to Department of Public Health Organizational Chart, 64 KB](#)**

### ***PUBLIC HEALTH***

#### ***ISSUES AND PRIORITIES***

**Mission  
Public Health  
Seattle & King County**  
Provide public health services that promote health and prevent disease to King County residents in order to achieve and sustain healthy people and healthy communities.

The mission of Public Health-Seattle & King County is to provide public health services that promote health and prevent disease to King County residents in order to achieve and sustain healthy people and healthy communities. Public Health provides direct services and education to the residents of King County in order to prevent health problems from starting, spreading, or progressing. Public Health helps the entire community, protecting and promoting the health of all residents.

Public Health's 2004 Executive Proposed Budget has been developed under the guidance of the Washington Administrative Code, Public Health's business plan, the interlocal agreement between King

County and the City of Seattle and the five core Public Health Performance Standards circulated by the State of Washington and implemented in the summer of 2002. The 2004 Executive Proposed Budget maintains Current Expense funding for services cited as critical under the Washington Administrative Code.

**Dedicated Health and Human Services Funding:** In lieu of Current Expense reductions to Public Health, the Executive Proposed Budget dedicates \$2.2 million of Solid Waste rent backed Children and Family Set Aside to Public Health. The funds are dedicated to supporting community health clinics in King County as well the programs of the Children and Family Commission.

**Transfer of Jail Health to Current Expense Fund:** The 2004 Executive Proposed Budget moves all expenditures related to providing jail health services to the Current Expense fund. Because Jail Health Services (JHS) resides operationally within the Department of Public Health, the expenditures and revenues associated with JHS activities were included within the Public Health Pooling Fund. In an effort to make transparent all criminal justice related costs, the 2004 Executive Proposed Budget establishes an appropriation unit within the Current Expense Fund for Jail Health Services. Public Health will continue to provide operational and policy oversight for Jail Health Services in the King County correctional facilities.

**Investing in Technology for Long Term Savings:** In 2003, Public Health and the Department of Adult and Juvenile Detention engaged a consultant to examine King County's Jail Health Services programs and make recommendations for efficiencies that would translate into reduced health care costs. The primary finding of the consultant was a recommendation to implement an electronic medical records (EMR) system within jail health as soon as possible. EMR will ensure that consistent and proper medical care is provided to inmates, as well as improve efficiency of the medical providers administering care to inmates. The 2004 Executive Proposed Budget includes \$2.0 million in Capital Improvement Project funds for the purchase and implementation of EMR.

**Maintaining Core Immunization Services:** In 2004, Public Health is slated to lose over \$300,000 of state funds allocated to the immunization programs in Public Health. With growing rates of non-immunized children and recent outbreaks of rubella in King County, the 2004 Executive Proposed Budget provides additional Current Expense funding to maintain a core, critical service to King County residents.

**Responding to Tuberculosis Outbreak:** King County is experiencing an outbreak of tuberculosis in the homeless population. The 2004 Executive Proposed budget provides funding for additional required screening services, treatment and case management services, contact investigation services, housing and other incentives necessary to control the outbreak in the County's population most vulnerable for TB.

**City of Seattle General Fund Reductions:** The 2004 Executive Proposed Budget for Public Health-Seattle & King County reflects a 24 percent decrease in the City of Seattle General Fund contribution

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

from 2003 adopted budget levels. This \$2,941,842 reduction in Seattle General Fund, included in the Mayor's Proposed Budget, affects interpretation programs, the epidemiology, planning and evaluation program, the health care access program and other health program activities. Also reflected in the General Fund reduction amount is the final year of a three-year reduction agreement established by the Joint Executive Committee agreement removing Seattle General Fund from health programs that are designated as critical.

**Restoration of State General Fund Support:** Popularly referred to as MVET Replacement funds, Public Health's 2004 Executive Proposed Budget reflects the full restoration of State General funds that had been reduced with a contra in 2003. The funding supports core, critical activities for tuberculosis, family planning, and sexually transmitted diseases.

**Federal Health Insurance Portability and Accountability Act (HIPAA) Compliance:** HIPAA imposes extensive requirements on every area within health care, governing the use, transmission, maintenance, security and privacy of all health care information. The 2004 Executive Proposed Budget for Public Health includes both one-time and ongoing expenditures related to implementing HIPAA related activities.

### **Emergency Medical Services**

**Expanding Advanced Life Support Services:** The Emergency Medical Services (EMS) 2002 Strategic Plan update anticipated the need to expand Advanced Life Support (ALS) services in several areas of the King County, including Shoreline, Bothell, Issaquah, and south King County. All King County EMS services are supported by a levy update in 2002; the 2002 Levy Update specifically includes support for these system improvements. The 2004 Executive Proposed Budget for the EMS Division includes expansion of ALS services in the Enumclaw Plateau area from the current 12-hour to 24-hour-per-day service. The area affected by this important program expansion includes Enumclaw, the Fire District 28 area, the Fire District 47 area, Black Diamond, the Muckleshoot Reservation, and the unincorporated area between Auburn and Enumclaw. This expansion will enable EMS to rapidly respond to emergent community needs at all times throughout the day, avoiding previous delays when service was provided from a remote location

**Increased Funding to Advanced Life Support in South King County and Creation of Regional Deputy Operations and Administrator Positions:** This budget also proposes creation of two FTE positions that support regional services, one of the priorities identified in the Strategic Plan update. Regional Services includes Basic Life Support (BLS) training, emergency medical dispatch, cardiac care research, CPR education programs, and a variety of other planning, training, and outreach programs related to the provision of superior emergency medical services. An FTE deputy operations position created under this proposal would assist in managing strategic and regional aspects of the BLS and ALS services. An FTE administrator would be assigned to manage the training and recertification of the approximately 3,500 EMTs (emergency medical technicians) associated with the BLS Training Section.

**% Change over Status Quo -7.80%**

\* FTEs do not include Temporaries and overtime.

\*\* This includes revised 2003 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### ***PROGRAM HIGHLIGHTS***

#### **Significant Program Reductions**

**Transfer of Jail Health Budget to Current Expense Fund – Reduction to Public Health Fund - (\$18,423,859)/ (167.15 FTE/1.0 TLT).** In order to make expenditures related to Jail Health more transparent, the Jail Health budget has been isolated from Public Health and moved to its own appropriation unit within the Current Expense fund. Public Health will continue to manage the day-to-day operations and provide financial and policy oversight of Jail Health Services.

**Underexpenditure Adjustment - (\$1,848,516).** This item reflects a 1 percent underexpenditure on the department's 2004 Executive Proposed Budget of \$180 million. This underexpenditure is based on a variety of cost savings initiatives such as the reexamination of Public Health priorities and overhead methodologies and anticipated salary savings due to vacancy rates within the department.

**Seattle General Fund Interpretation Services Reduction – (\$337,270).** In 2003, the City of Seattle eliminated half of its Seattle General Fund support for interpretation services. In 2004, the City of Seattle eliminates all Seattle General fund support for interpretation services, a critical Public Health program. This reduction in funding and staffing levels will result in decreased Public Health services to residents of Seattle and King County.

**Elimination of Current Expense for School Linked Health Centers – (\$281,524 Current Expense/1.0 FTE).** In order to maintain core, critical health services to all County residents, this proposal eliminates King County Current Expense support for the Highline and Renton School-Linked Health Centers. School-Linked Health Centers are an enhanced public health service.

**Clinical Laboratory Redesign - (\$190,903 Current Expense/3,00 FTEs).** This proposal reflects the reengineering of Public Health's clinical lab services to sustain a more cost-effective model without reduction of services. Responding to the changing dynamics of medical coverage and to more fully utilize the services of the contracted external lab vendor, four medical technician positions have been eliminated at the three PH clinics with internal labs.

#### **Mandatory Additions**

**Commission Step and COLA Increases - \$54,469.** This item funds step and COLA adjustments for the Children and Family Commission for 2004 from Solid Waste rent backed Children and Family Set Aside revenue. All 2004 Children and Family Commission costs are funded by the Solid Waste rent backed Children and Family Set Aside revenue.

#### **Program Changes**

**Emerging Health Threats - \$377,096/3.50 TLT.** This additional Current Expense will allow Public Health to address the outbreak of tuberculosis among the homeless in King County. Due to the high demands of case management and investigation of tuberculosis cases, the dramatic increase in TB cases has an acute impact on service demand and workload. This request adds funding for TLT staff who will manage and control this outbreak through diagnosis and treatment, contact investigations, counseling, screenings, and case management. They will directly observe therapy, medical services and supplies (chest x-rays, HIV tests, medications), and incentives to ensure our ability to track and treat these individuals such as housing and food coupons. 2003 staffing levels and operating expenses are insufficient to provide the necessary services for this outbreak in a hard-to-reach, multiple affected, homeless population.

**Maintain Immunizations – \$425,000.** This adjustment maintains a critical, core Public Health program for the citizens of King County. Faced with cuts in state Local Capacity Development Fund and Seattle General Fund revenue, Public Health will receive \$425,000 of new Current Expense funds to preserve needed immunization services for children and adults.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Significant Program Additions**

#### **Health Insurance Portability and Accountability Act (HIPAA) Add - \$1,792,008/4.30**

**FTE/4.50TLT.** This revenue backed addition supports Public Health compliance with the Federal Health Insurance Portability and Accountability Act (HIPAA) of 1996. Under HIPAA, administrative simplification provisions intend to streamline the health care system through standardized electronic data and to protect the confidentiality of personal health information. The health care industry, including the services provided by Public Health, is federally mandated to comply with HIPAA. The regulation imposes extensive requirements on every area within healthcare, governing the use, transmission, maintenance, security and privacy of health care information. HIPAA compliance is both a one-time and on going activity, thus some expenditures are one-time and some ongoing. One-time expenditures will be funded through the use of Public Health Fund balance. The majority of one-time funds will support the update of the physical and technical infrastructure at Public Health. One-time only costs of \$1.3 million will support three TLTs for operating system implementation and three part-time TLTs to develop policies and procedures. There are also one-time technical infrastructure costs including hardware/software upgrades, IT security software, and project management for implementation of operating system upgrades. The on-going expenses include increases for personnel, operating costs, supplies and EDP costs and are fully revenue backed through the use of the department's overhead recovery structure. PH proposes a total of 4.3 FTE's for ongoing HIPAA compliance. These FTEs will include designation of a Privacy Official (1.0 FTE) and Security Official (1.0 FTE), both of which are mandated by privacy and security regulations. It also includes a Privacy and Security Training Manager (1.0 FTE) to comply with the HIPAA requirement to provide ongoing role-based training for current department staff and initial training for all new hires at PH. A Project Manager (.80 FTE) for management and accountability is also requested.

**Communicable Disease Section Additions and Adjustments - \$329,397/1.45 FTE.** This revenue backed addition makes several staffing adjustments, adding a net 1.45 FTE. The Communicable Disease Epidemiology and Immunization Section budget proposal adds a full-time Medical Epidemiologist (Senior Physician) to the Communicable Disease Epidemiology program, partially funded by federal bioterrorism response grant funds, to assist in development of communicable disease and incident response capabilities and communicable disease outbreaks. Also added is a Project/Program Manager III and contracted services with a pediatric association to conduct an immunization grant project funded by Centers for Disease Control and Prevention. The immunization project will provide child immunization education and outreach services to health care providers and targeted populations. The communicable disease section is responsible for disease surveillance, case investigation and intervention activities for existing and emerging communicable diseases. These additions are necessary to enable Public Health to meet state requirements for reportable illnesses. Reports of notifiable diseases have increased 250 percent over the last three years in King County, due in part to increases in pertussis, chronic hepatitis B, chronic acute hepatitis C, as well as the emergence of Severe Acute Respiratory Syndrome (SARS).

**Chronic Disease Coalition Grant - \$765,867/3.05 FTE.** This new grant, funded by the Centers for Disease Control and Prevention, designates Public Health as the lead agency of the King County Healthy Steps Consortium. This coalition will implement targeted interventions addressing asthma, diabetes, obesity, nutrition, physical activity, and tobacco in an area covering southern Seattle and six adjacent suburban cities. Grant funding is guaranteed for a minimum of five years.

**Eastgate Sewage Grant - \$266,076/1.00 FTE/.75 TLT.** This new grant from the Washington State Department of Ecology will enable Public Health to scan, index, and post wastewater as-built records to a public access web site. This project will make public access to the more than 30,000 hard copy and over 119,000 microfilm records of on-site sewage disposal systems in King County.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Technical Adjustments**

**Family Support and Women, Infants and Children Adjustments – (\$503,794)/(1.86 FTE/1.0 TLT).** This technical adjustment consolidates adjustments made to revenues, personnel, operating supplies and capital to balance revenues and operating costs. The adjustment will not affect program performance. The previously grant-funded position of asthma education coordinator has been eliminated. With the 2004 increases in salary/benefit costs throughout the program, Family Support Services is unable to support this position. While asthma education coordination has changed, Public Health is pursuing alternative opportunities for funding asthma activities.

**Medical Examiner Technical Adjustments – \$91,628.** This technical adjustment reflects an increase in the Medical Examiner's (ME) Office revenue receipts from autopsy reports, fee collections from death investigation revenue and a Stanley Foundation Institute grant. Death Investigation revenue was increased due to the increased work that the contracting expert physicians provide the ME office. The death investigation revenue increase also includes funding the ME office receives from a new legislative bill that was implemented in late 2002, providing a total reimbursement on all Sudden Infant Death Syndrome (SIDS) cases. Autopsy report fees (print fees) are projected to increase by 25% due to the increased volume of requests in the first six months of 2003. This increase in revenue was able to meet the increased expenditure impact due to higher benefit costs, salaries, and medical supplies.

**Site Management Technical Adjustments – \$208,193/2.50 FTE.** This technical adjustment standardizes the Public Health site management team model across all ten of the Public Health Centers, ensuring the effective operations and delivery of personal health services to King County residents. One new nursing supervisor is added at two centers. Two Administrator I positions that were previously split among four of the centers will be consolidated into Community Health Services division operations for deployment to all sites as needed.

**Public Health Salary Adjustments Since PSQ – \$241,639.** This technical adjustment corrects the salaries/benefits/Cost of Living Adjustments (COLA) for individual staff within the Public Health Fund. Salaries were corrected in multiple projects.

**Central Rates – \$4,022,517.** Central rate adjustments include CX Overhead, ITS Operations and Maintenance, ITS Infrastructure, GIS, Office of Information Resource Management, Telecommunications Services and Overhead, Motor Pool Adjustment, Facilities Management Space Charge, Insurance Charges, Prosecuting Attorney Rates, Debt Service Adjustment, Long Term Leases, Finance Rates, Retirement Rate Adjustment, Cell Phone and Pager Services, CX Underexpenditure, Property Services Lease Administration Fee, Major Maintenance Repair Fund, Transfer to Risk Abatement, and Finance Payroll Projects.

\*\* This includes revised 2003 adopted, initial status quo, and proposed status quo increments. Under FTEs, annualization is included.

### Emergency Medical Services

#### Significant Program Additions

**Expansion of Advanced Life Support Paramedic Unit in South King County - \$737,131/4.0 FTEs/0.5 TLT.** This change supports the increase of Medic 12 Advanced Life Support (ALS) service from 12 hours to 24 hour-per-day service. Medic 12 serves the Enumclaw Plateau. This change was recommended in the 2002 EMS Strategic Plan Update.

**King County Medic One Advanced Life Support – \$86,534 and 0.50 FTE.** This proposal increases King County Medic One's 2004 Executive Proposed Budget to include the 2004 ALS allocation, replacement of two medic vehicles, and reimbursable contracts. It includes increasing an existing 0.50 FTE clerical position to 1.00 FTE to support expanded clerical and administrative needs.

**2004 CPI Increase to Advanced Life Support Service Costs - \$383,059.** This proposal increases the ALS allocation by 2.1 percent based on projections of the per-unit cost increase due to inflation, an increase of \$37,383 per unit. Planned medic unit replacement, per the EMS vehicle replacement plan, is included.

**Basic Life Support – Adjustment per EMS Strategic Plan - \$183,529.** This proposal provides funding for Basic Life Support services at the level recommended by the EMS Strategic Plan with adjustments for projected 2004 CPI.

**Deputy Operations and Administrator Positions for Regional EMS – (\$165,034)/2.00 FTE/2.50 TLT.** This proposal allocates funds from elimination of 2.50 TLT positions to create a 1.0 FTE deputy operations position for regional system management and a 1.0 FTE administrator position. The administrator will oversee training and recertification of the County's 3,500 EMTs. This item also reallocates 2.00 existing TLT positions for technology information processing, supporting a transition from paper to electronic data submission, and increases an existing 0.50 TLT position to 1.0 TLT for the support of strategic initiatives in the community programs section.

**Add FTE for Succession Planning for Paramedics - \$590.** This proposal adds 1.00 FTE to manage an increased workload relating to succession planning for paramedics. The increased cost of salary and benefits is offset by the use of a budgeted contingency reserve.

#### Technical Adjustments

**Increase EMS support to Public Health departmental overhead- \$134,807.** This technical adjustment reflects a revised allocation of Public Health Department administrative overhead among the various divisions.

**EMS salary adjustments since PSQ - \$22,162.** This adjustment reflects step increases and COLA for paramedic and instructor salaries not included in the agency's PSQ phase budget.

**Adjustment to EMS long-term Lease Rates - (\$6,829).** This adjustment reflects reallocation of divisional Lease Rates within the several sub-units of Public Health to align with actual space charges.

**Central Rate Adjustments – \$47,993.** Central rate adjustments include changes in Current Expense Overhead Adjustment, Insurance Charges, Prosecuting Attorney Civil Division Charge, Long-term Lease Rates, Financial Services Charge, Property Services Lease Administration Fee, and Finance Payroll Projects.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### **Local Hazardous Waste Program**

#### **Significant Program Reductions**

This proposal represents a 2004 budget that is essentially unchanged from 2003. The minor change taken in the 2004 Executive Proposed Budget, proposed by and agreed to by the Local Hazardous Waste Management Program's partners, aligns expenditures and revenues by making reductions in contributions to the illegal drug abatement fund, King County Solid Waste Fund, and the Public Health Fund. The impact of this adjustment will be primarily in the Healthy Homes project in Public Health.

**LHW Management Plan changes - (\$71,356).** This net reduction includes increases to City of Seattle contract services and contributions to the Surface Water Management Fund, offset by reductions in contributions to the Solid Waste and Public Health Funds.

#### **Technical Changes**

**Central Rate Adjustments – (\$2,516).** Central rate adjustments include changes in Financial Services Charge and Finance Payroll Projects.

## **HEALTH & HUMAN SERVICES PROGRAM PLAN**

---

### ***PROGRAM HIGHLIGHTS***

#### **Public Health and Emergency Medical Services General Fund Transfers**

The 2004 Executive Proposed budget includes General Fund Transfers to the Public Health and Emergency Medical Services fund.

#### **Public Health Transfer Additions**

**Emerging Health Threats – \$377,096.** This item reflects additional Current Expense funds targeted for use by Public Health to address the tuberculosis outbreak in King County. This request adds funding for TLP staff who will manage and control this outbreak through diagnosis and treatment, contact investigations, counseling, screenings, and case management. They will directly observe therapy, medical services and supplies (chest x-rays, HIV tests, medications), and incentives to ensure our ability to track and treat these individuals such as housing and food coupons.

**Maintain Immunizations – \$425,000.** This additional Current Expense funding will maintain a critical, core Public Health program for the citizens of King County. Faced with cuts in State Local Capacity Development Fund and Seattle General Fund revenue, Public Health will receive \$425,000 of new Current Expense funds to preserve needed immunization services for children and adults.

#### **Public Health Transfer Reduction**

**Jail Health Reduction – (\$68,406).** This reduction reflects a reduction in the CX transfer to Public Health related to the transfer of Jail Health to the Current Expense Fund. Public Health uses CX transfer funds to pay for general government costs. As general government costs were reduced with the transfer of Jail Health to the CX fund, there is a subsequent reduction of CX transfer to Public Health.

**Reduction for CX Transfer (\$2,171,510).** There are no service reductions associated with this revenue change to Public Health. This item reflects the replacement of Current Expense funding with solid waste backed Children and Family Set Aside revenue. Expenditures related to the Children and Family Commission and transfers to community health centers are now funded via the Children and Family Set Aside Fund instead of Current Expense Transfer funds.

#### **Technical Adjustments**

**1.25 Percent Underexpenditure Requirement – (\$28,186).** This reflects adjustment of the budgeted underexpenditure requirement.
